

How to: Set a Connect IoT Repository

1. Go to MES

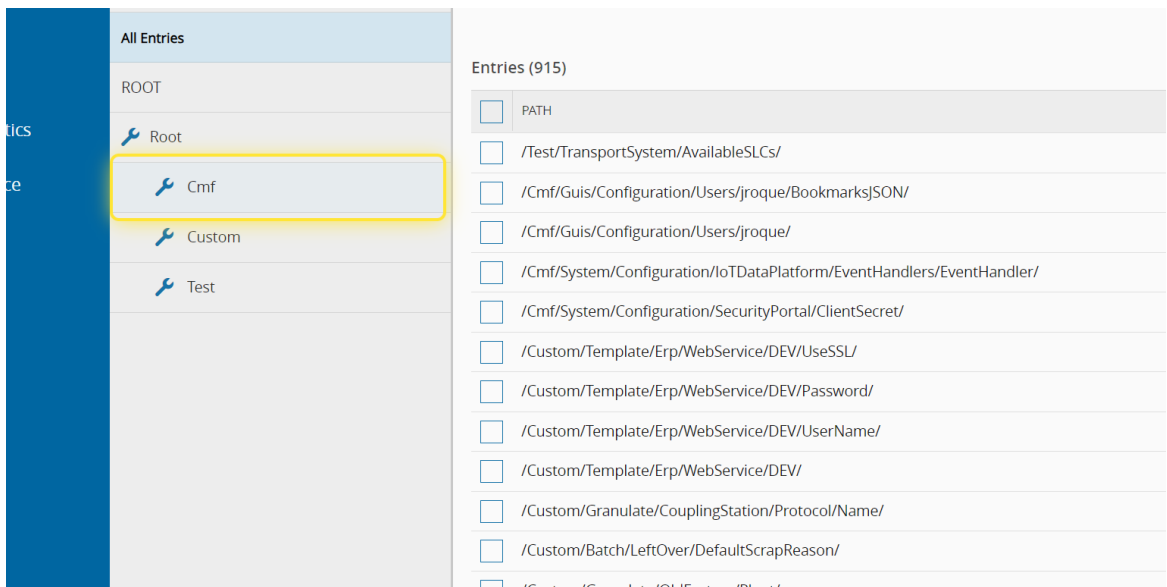

2. Select Administration

3. Select Configuration

4. Select Cmf

5. Select System

The screenshot shows a navigation pane on the left with 'All Entries' at the top. Below it, a breadcrumb path shows '< ROOT'. The main list contains three entries: 'Cmf', 'Guis', and 'System'. The 'System' entry is highlighted with a yellow box. The right pane shows 'General Data' for the selected entry, with a wrench icon and the following details: Path: /Cmf/, Name: Cmf, Type: Value, and Confidential: X No. Below this, there is a 'CHILD ENTRIES' section and an 'Entries (2)' table.

PATH
/Cmf/Guis/
/Cmf/System/

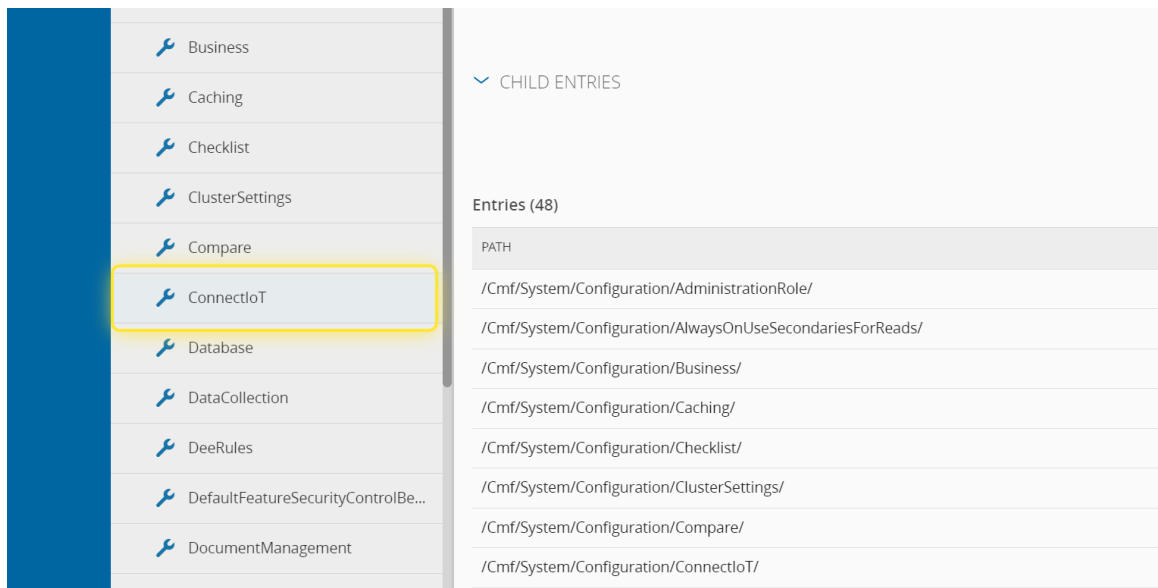

6. Select Configuration

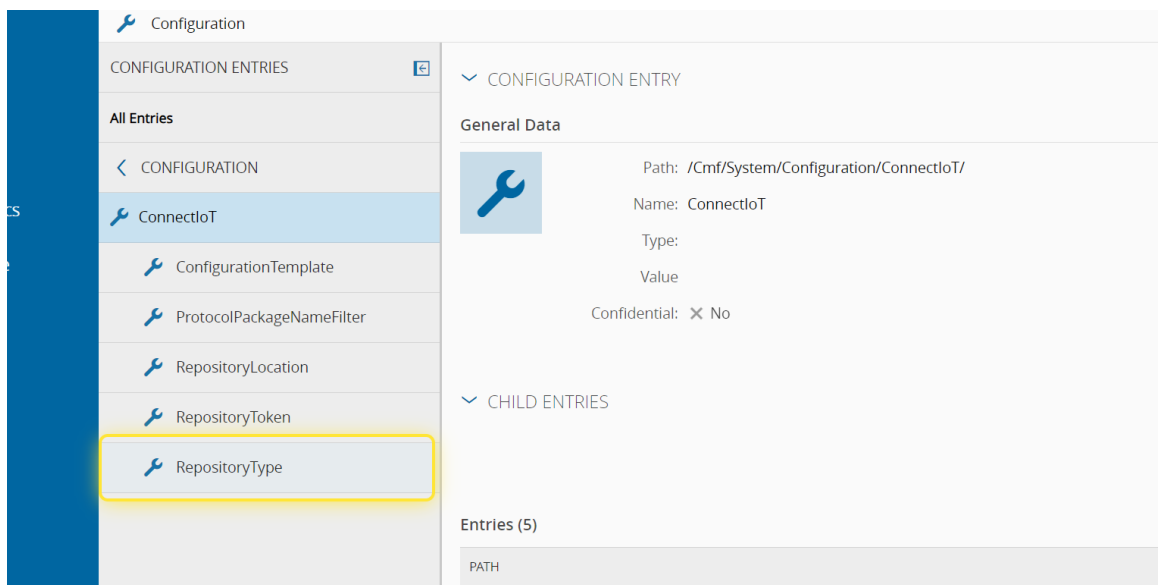

The screenshot shows the navigation pane with 'All Entries' at the top. The breadcrumb path is '< CMF'. The main list contains two entries: 'System' and 'Configuration'. The 'Configuration' entry is highlighted with a yellow box. The right pane shows 'General Data' for the selected entry, with a wrench icon and the following details: Path: /Cmf/System/, Name: System, Type: Value, and Confidential: X No. Below this, there is a 'CHILD ENTRIES' section and an 'Entries (1)' table.

PATH
/Cmf/System/Configuration/

7. Select ConnectIoT

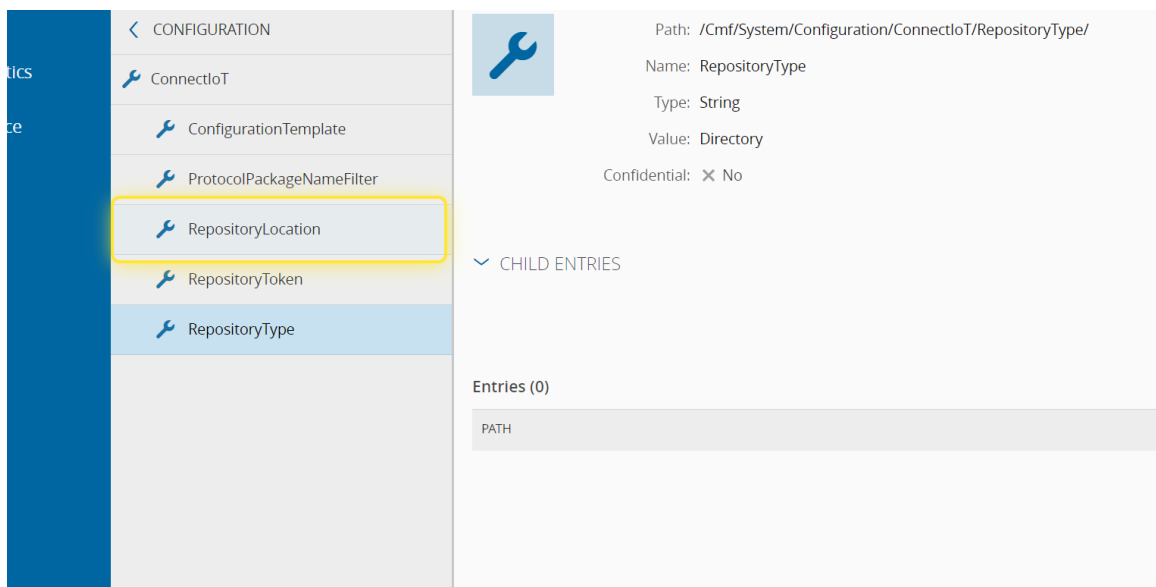

8. Select RepositoryType

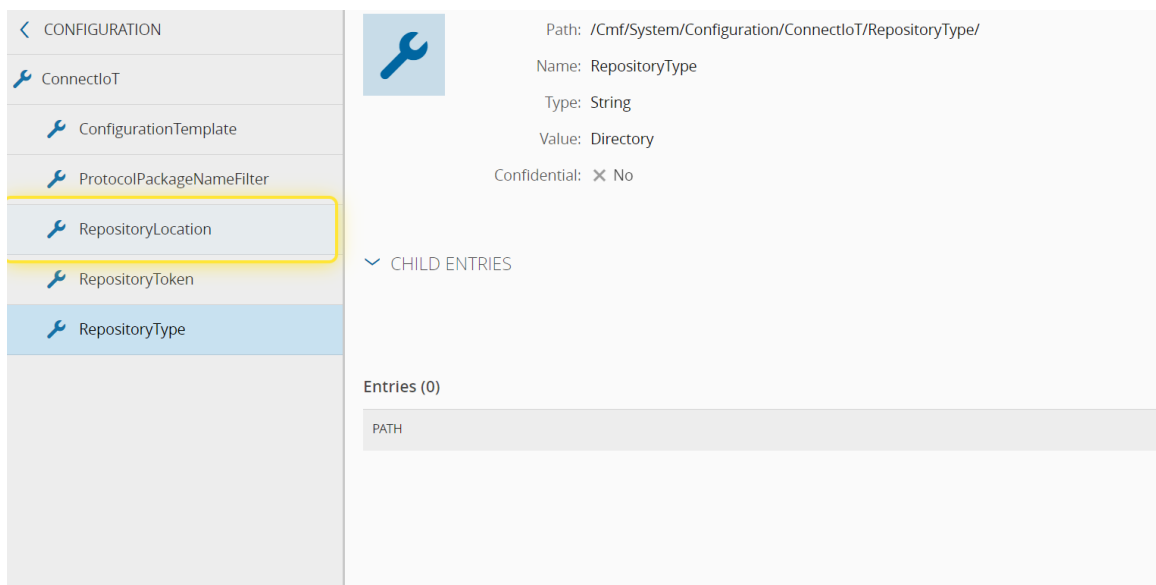

9. Set the Repository Type

The repository type settings can be either a **Directory** or **NPM**

10. Select RepositoryLocation

11. Set either the NPM URL or the path to the Directory

The screenshot displays the Configuration management interface. The main content area shows a configuration entry with the following details:

- General Data:**
 - Path: `C:\ProgramData\CriticalManufacturing\ConnectToRepositoryLocation`
 - Name: `RepositoryLocation`
 - Type: `String`
 - Value: `[REDACTED]`
 - Confidential: No
- Information:**
 - Created by: `System`
 - Created on: `12/30/2018 10:04 PM`
 - Modified by: `admin`
 - Modified on: `11/02/2023 09:17 AM`

Below the configuration entry, there is a section for CHILD ENTRIES, which is currently empty. The interface includes a search bar and a table with columns for PATH, NAME, and VALUE. The table shows "No data to show".
