

## How to: Manage Resource Structure

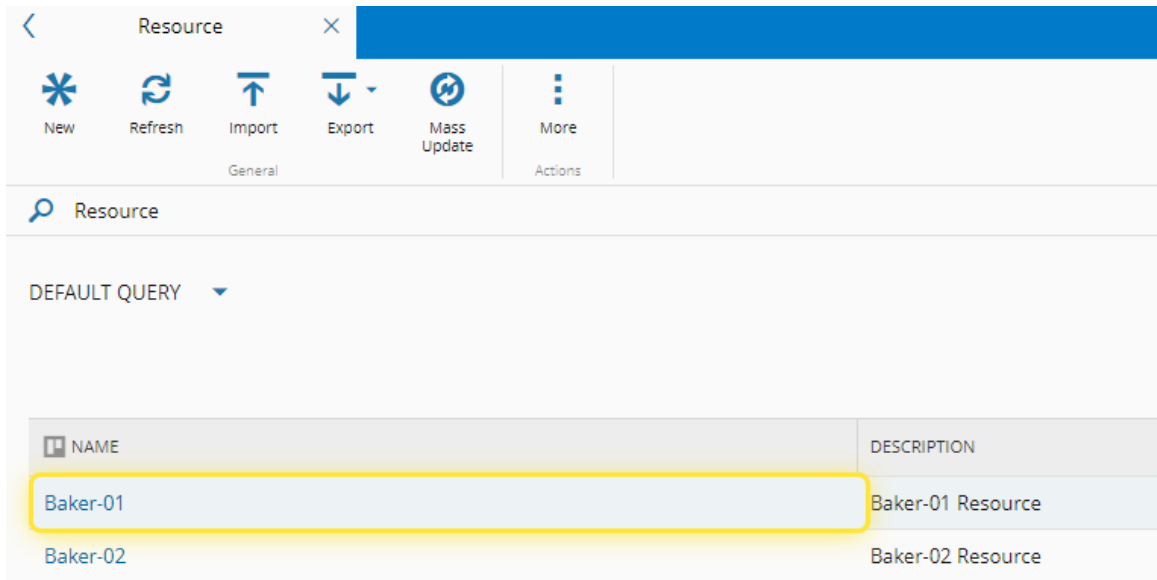

1. Go to the Business Data menu.

2. Select the Resource entity.

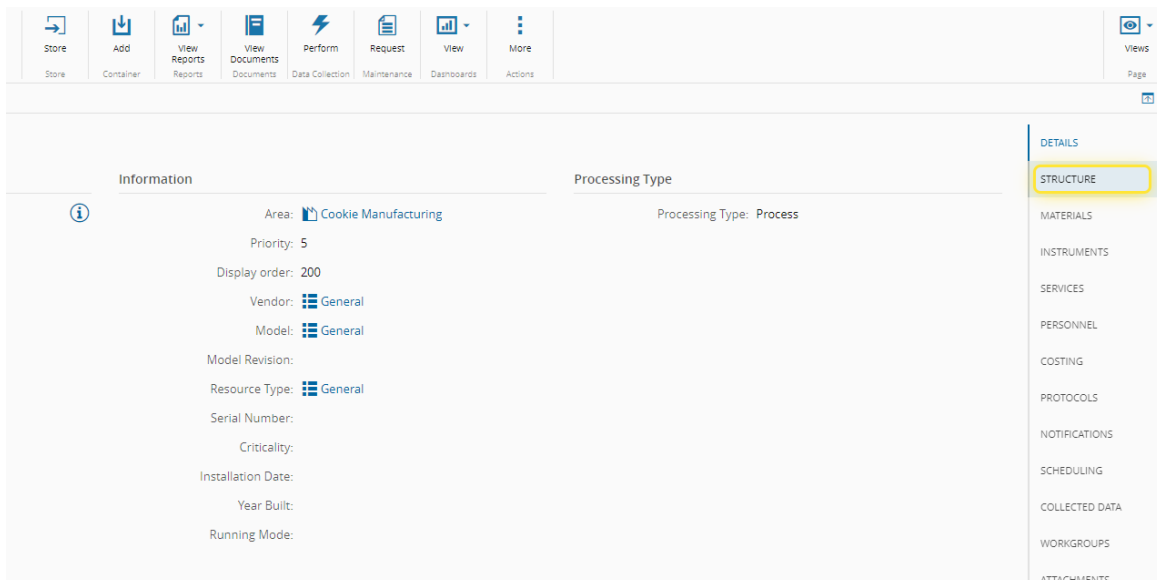

3. Select the Resource.

NAME	DESCRIPTION
Baker-01	Baker-01 Resource
Baker-02	Baker-02 Resource

4. Select the Structure section.

Information Processing Type

Area: Cookie Manufacturing Processing Type: Process

Priority: 5

Display order: 200

Vendor: General

Model: General

Model Revision:

Resource Type: General

Serial Number:

- PROTOCOLS
- NOTIFICATIONS
- SCHEDULING
- COLLECTED DATA
- WORKGROUPS
- ATTACHMENTS

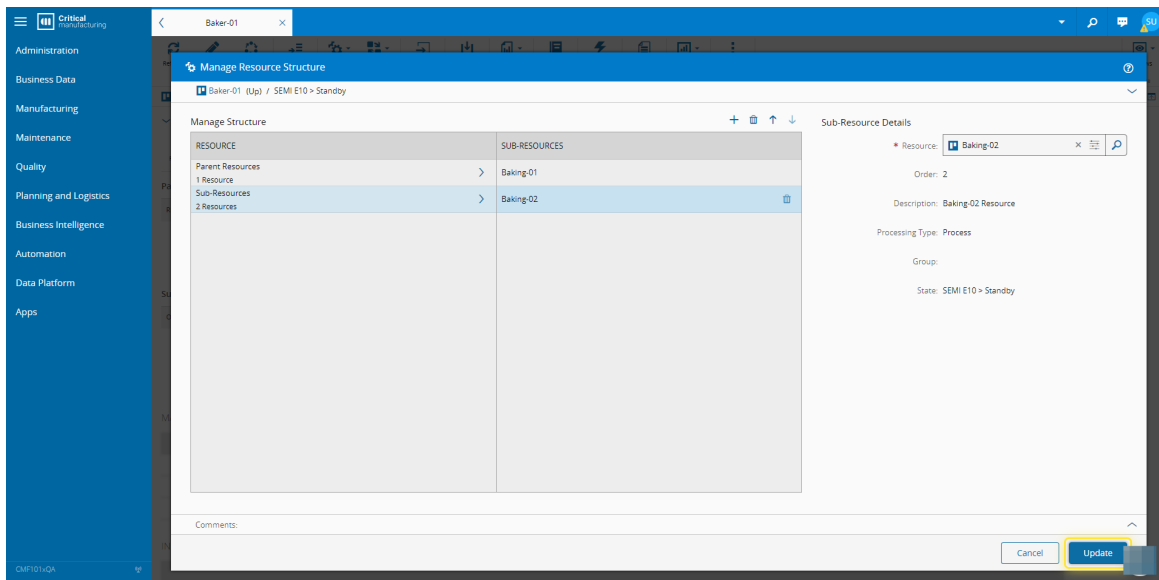

5. Select the Manage button.

Here you can manage the Parent Resources and Sub-Resources. For more information, see [Manage Structure - Critical Manufacturing Documentation Portal](#)

The screenshot shows the Baker-01 resource management interface. At the top, there is a navigation bar with icons for Refresh, Edit, Change State, Dispatch, Manage, Change, Store, Add, View Reports, View Documents, Perform, Request, View, and More. Below this, the 'Baker-01 (Active)' section is visible. Under the 'STRUCTURE' heading, there are 'Refresh' and 'Manage' buttons, with the 'Manage' button highlighted by a yellow box. Below the structure section, there are two empty tables: 'Parent Resources (0)' and 'Sub-Resources (0)'. Both tables have columns for RESOURCE, DESCRIPTION, PROCESSING TYPE, and STATE. The tables contain the text 'No data to show.' and a 'Rows per Page: 25' dropdown menu.

6. Add resources as needed and select Update.

The screenshot shows the 'Manage Resource Structure' dialog box. The left pane shows a tree view with 'Parent Resources' (1 Resource) and 'Sub-Resources' (2 Resources). The right pane shows 'Sub-Resource Details' for 'Baking-02'. The details include: Resource: Baking-02, Order: 2, Description: Baking-02 Resource, Processing Type: Process, Group: (empty), and State: SEMI E10 > Standby. At the bottom right, there are 'Cancel' and 'Update' buttons, with the 'Update' button highlighted by a yellow box.
