

How to: Create a Flow

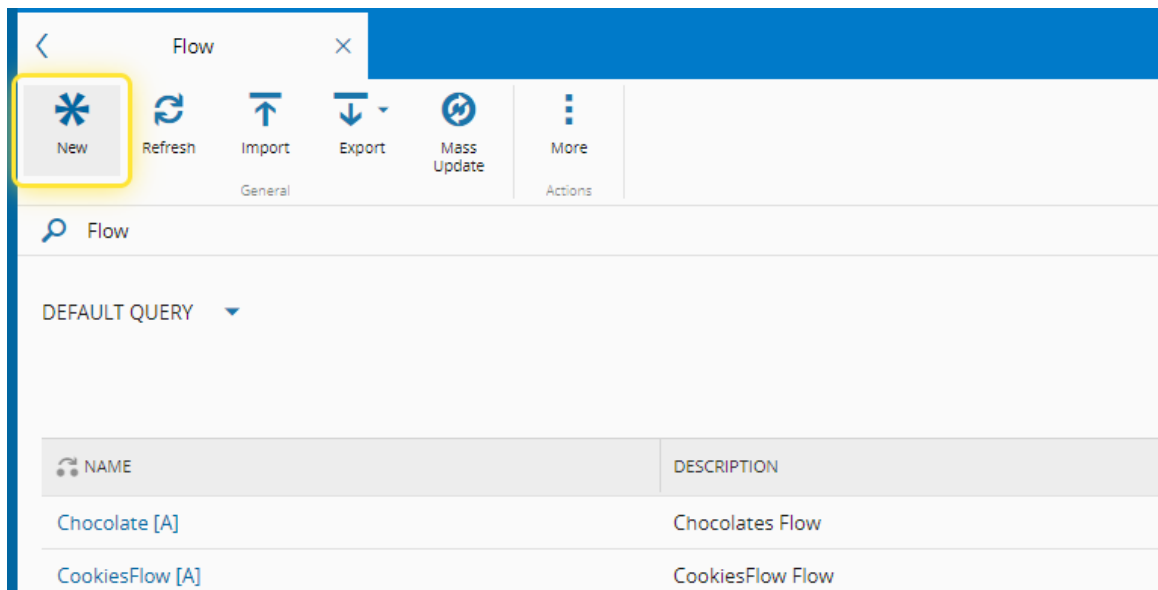

1. Go to the Business Data menu.

2. Select the Flow entity.

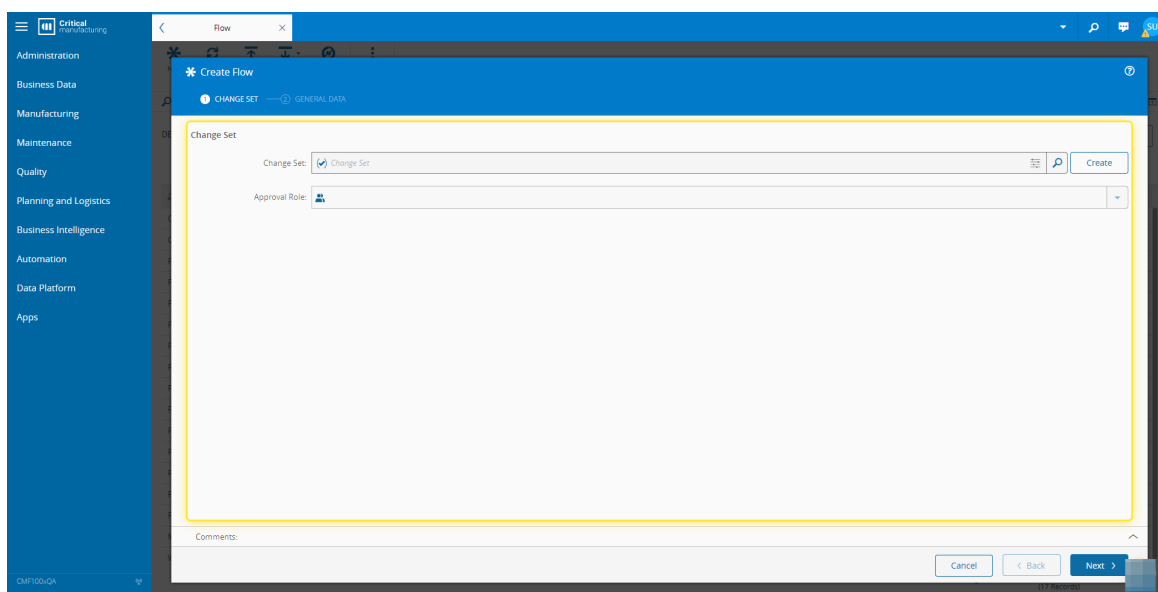

3. Select the New button.

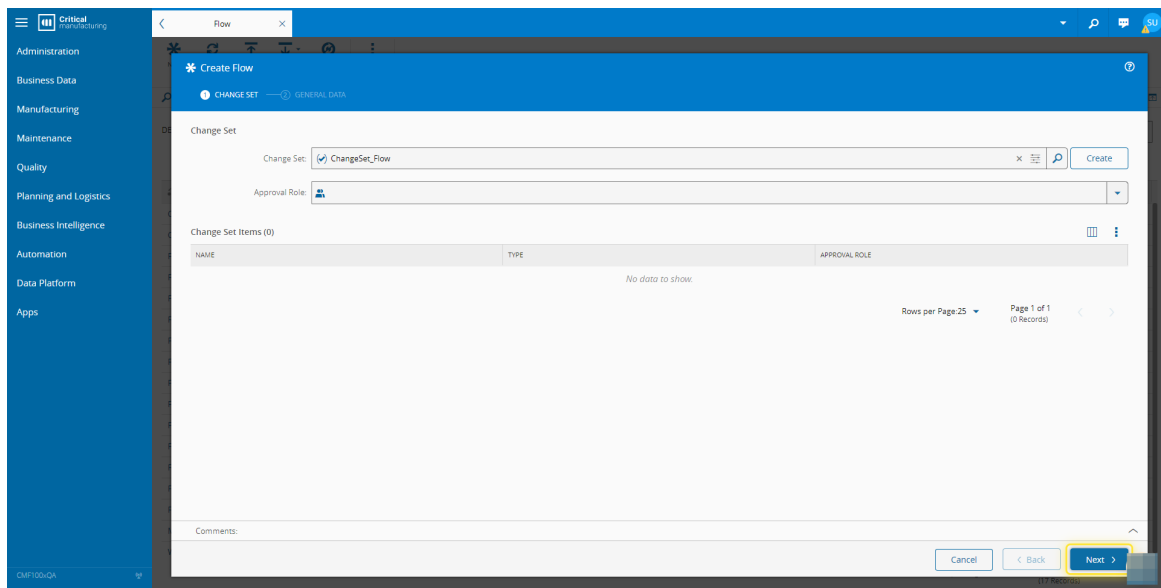

4. Under the Change Set tab, select an existing Change Set or Create a new one.

For more information, see [Create Change Set - Critical Manufacturing Documentation Portal](#)

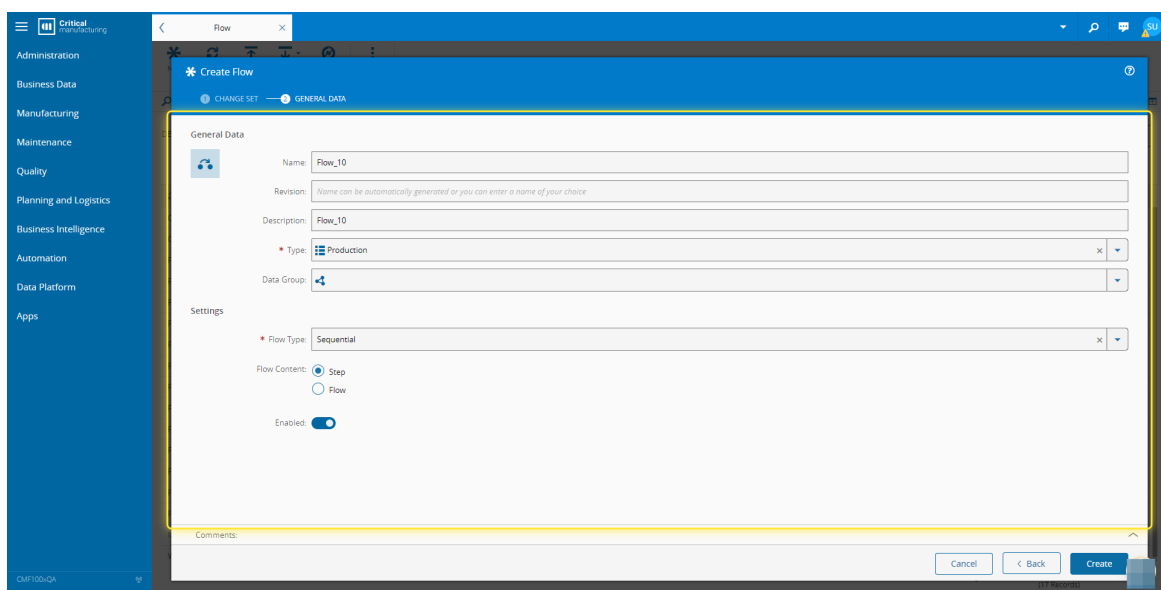

5. Select the Next button.

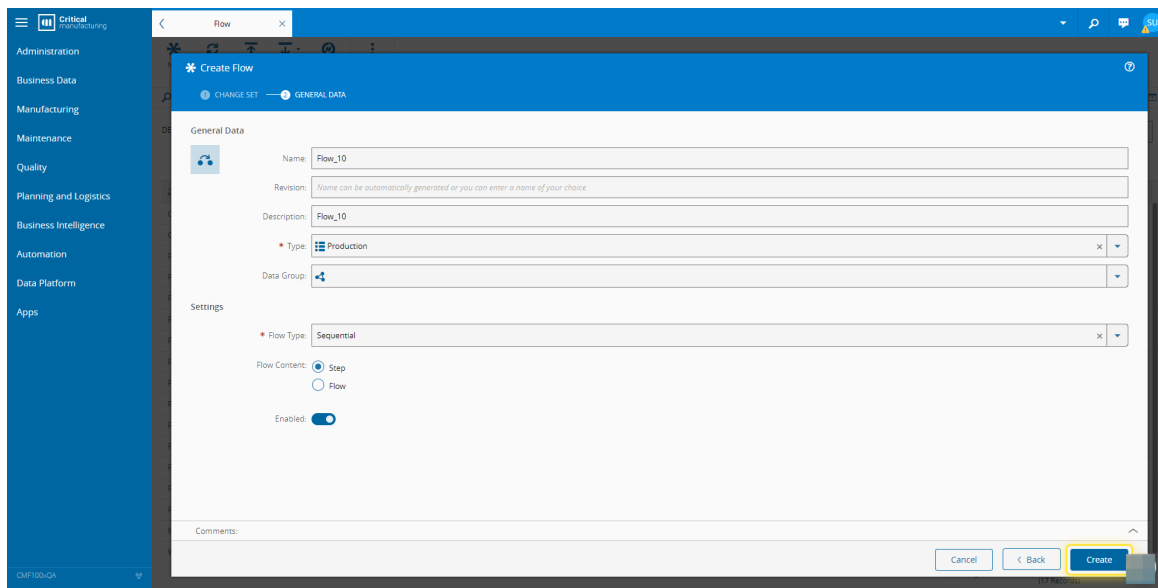

6. Under the General Data tab, complete the necessary fields.

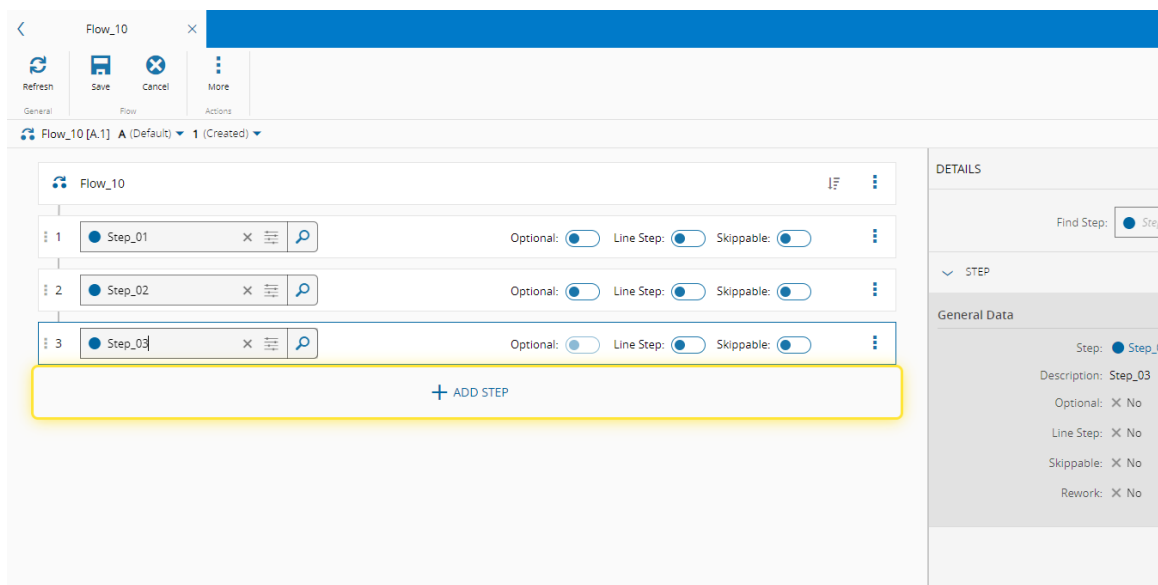

See [Create Flow - Critical Manufacturing Documentation Portal](#)

7. Select the Create button.

8. Depending on the Flow Content configuration, add Flows/Steps to your Flow.

9. And Save them.
