Loading the Model

After creating your model, it's time to load it into the system. Follow these steps to load the model:

1. Populate the [Excel Template](#).
2. Create a **Master Data Package** through the [Master Data Packages](#) section of the Administration menu.

3. Load the **Master Data Package** file created in the first step.

4. Run the import procedure by selecting the **Load** button and checking for any potential errors in the Execution View.

Load Master Data Package
