

How to: Create a Data Collection

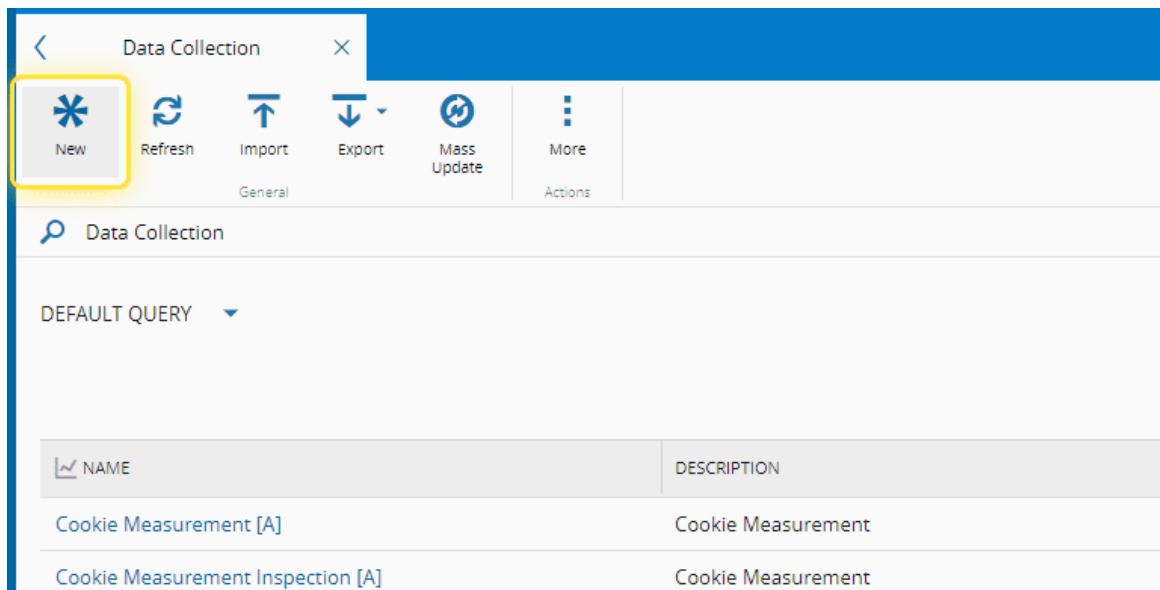

1. Go to the Business Data menu.

2. Select the Data Collection entity.

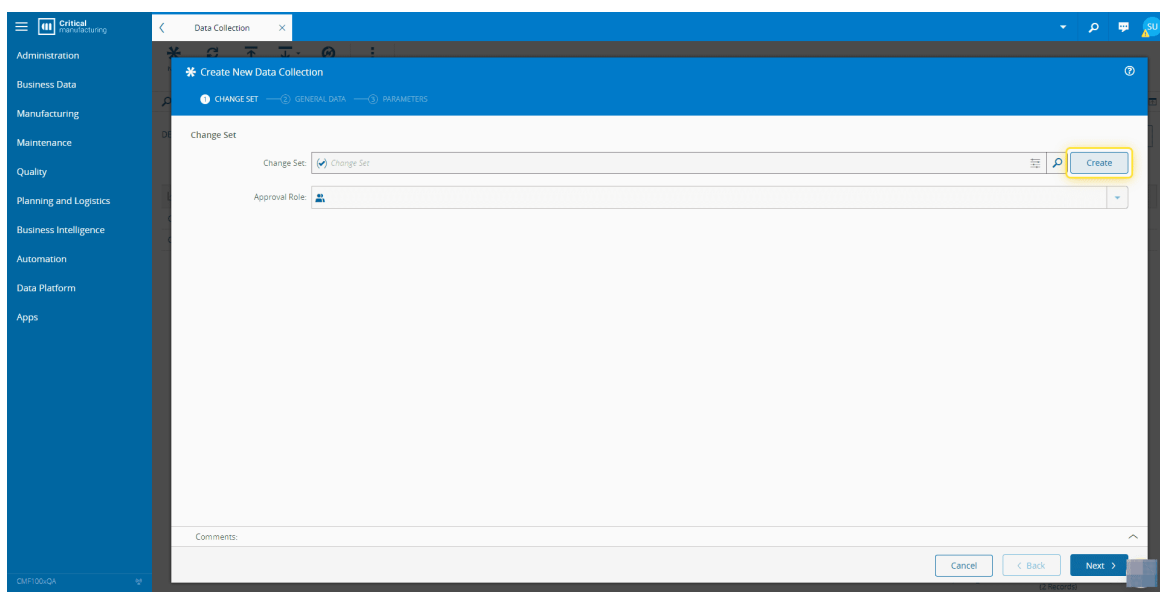

3. Select the New button.

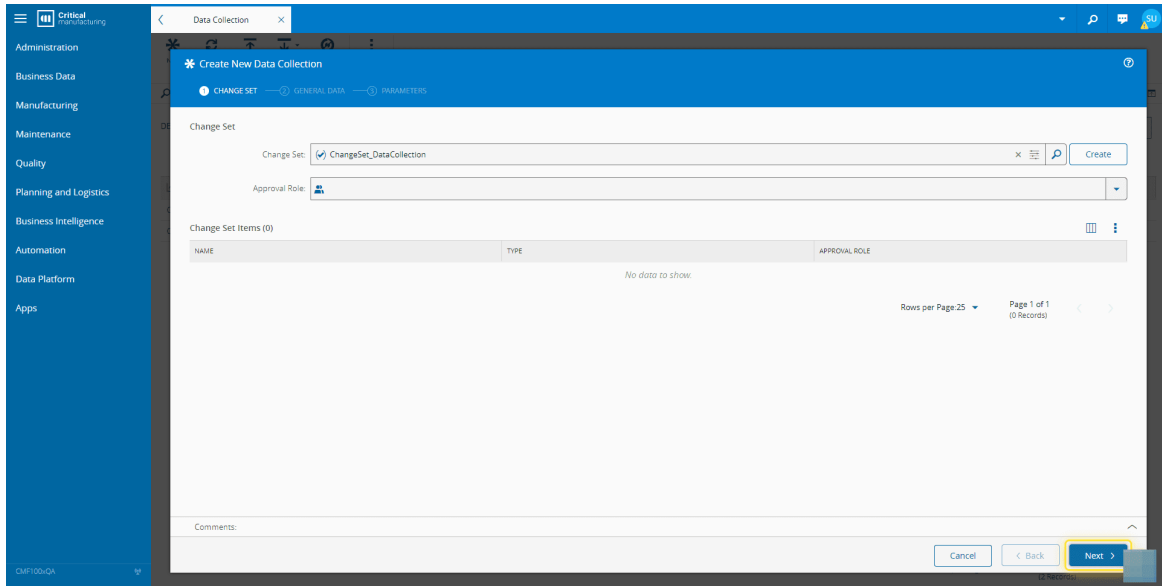

4. Under the Change Set tab, select an existing Change Set or Create a new one.

For more information, see [Create Change Set - Critical Manufacturing Documentation Portal](#)

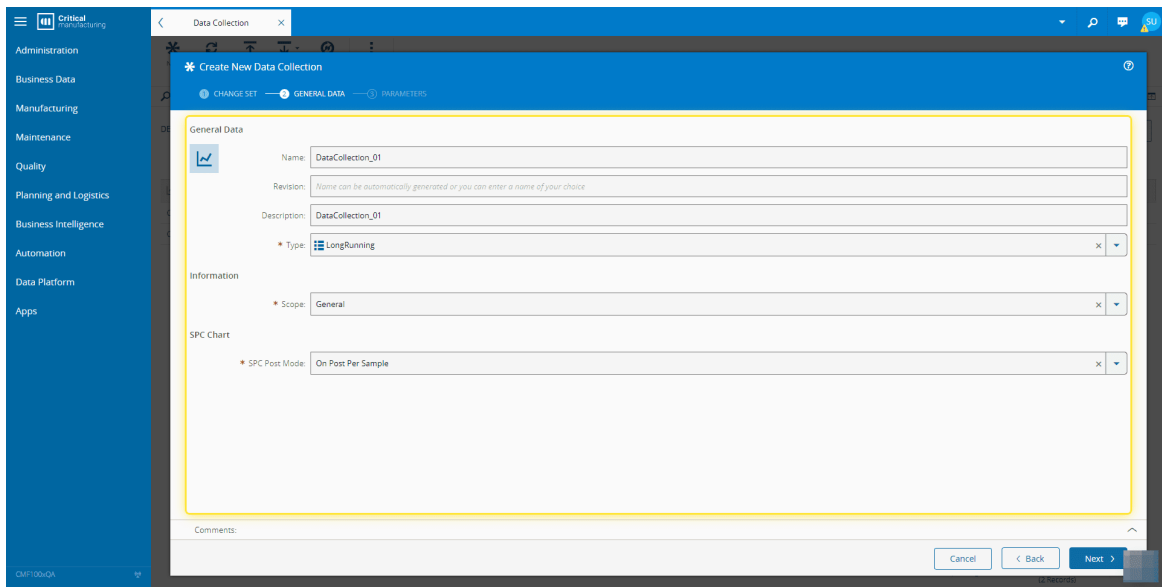

5. Select the Next button.

The screenshot shows the 'Create New Data Collection' form with the 'CHANGE SET' tab selected. The form includes a 'Change Set' dropdown menu with 'ChangeSet_DataCollection' selected, an 'Approval Role' dropdown, and a table for 'Change Set Items (0)'. The table has columns for 'NAME', 'TYPE', and 'APPROVAL ROLE'. At the bottom, there are 'Cancel', '< Back', and 'Next >' buttons. The 'Next >' button is highlighted with a yellow box.

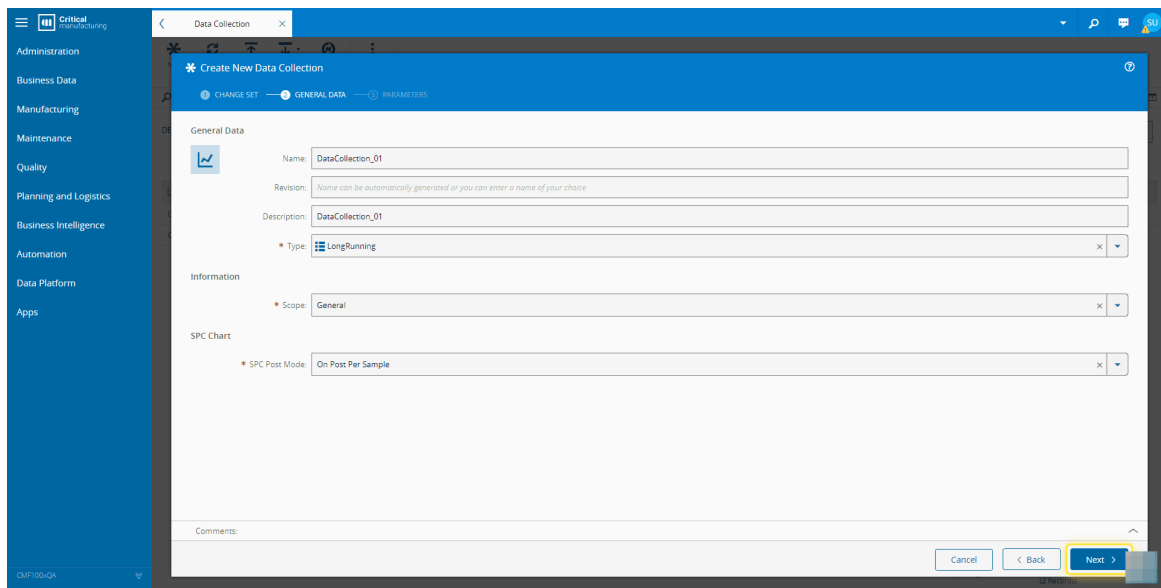

6. Under the General Data tab, complete the necessary fields.

For more information, see [Create Data Collection - Critical Manufacturing Documentation Portal](#)

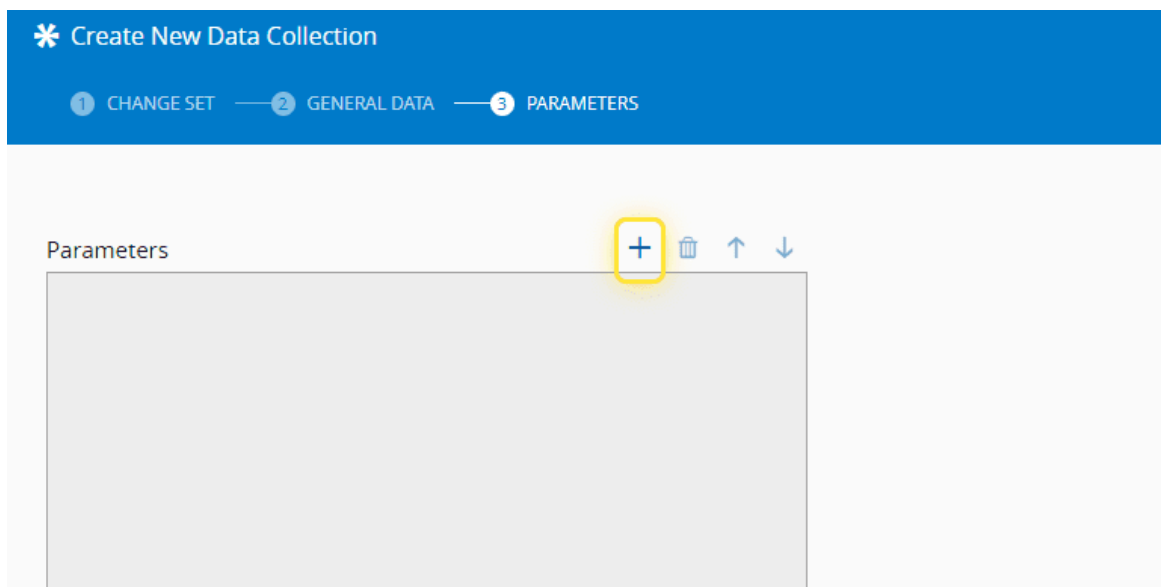

The screenshot shows the 'Create New Data Collection' form with the 'GENERAL DATA' tab selected. The form includes a 'Name' field with 'DataCollection_01', a 'Revision' field with a placeholder, a 'Description' field with 'DataCollection_01', a 'Type' dropdown with 'LongRunning', an 'Information' section with a 'Scope' dropdown with 'General', and an 'SPC Chart' section with an 'SPC Post Mode' dropdown with 'On Post Per Sample'. At the bottom, there are 'Cancel', '< Back', and 'Next >' buttons. The 'Next >' button is highlighted with a yellow box.

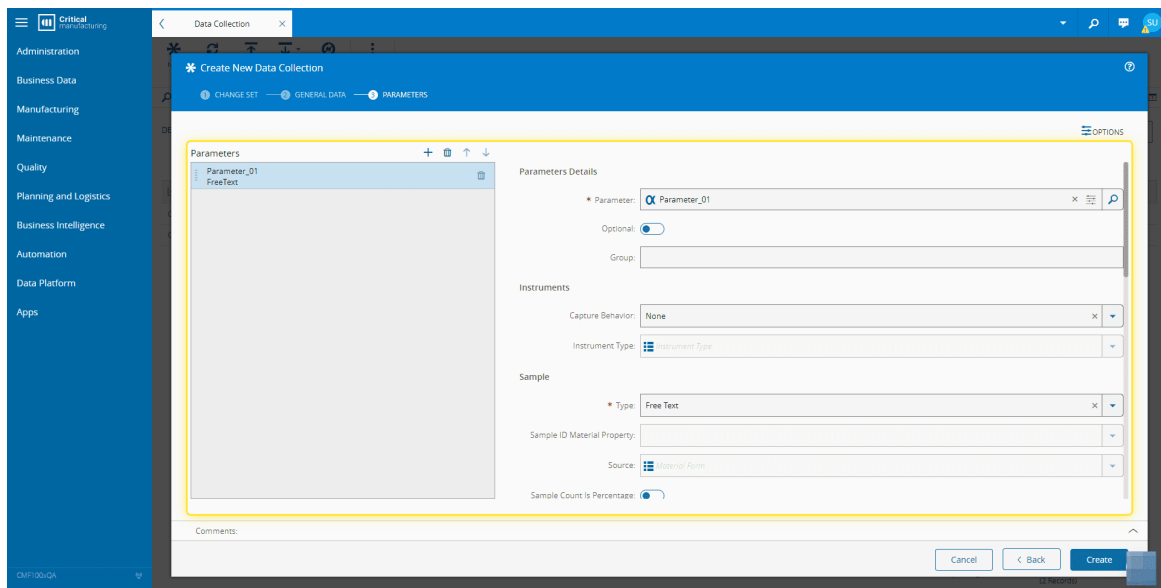

7. Select the Next button.

8. Select + to add Parameters.

9. Enter the needed Parameter Details.

10. Select the Create button.
