

How to: Manage Container Positions

1. Go to the Business Data menu.

2. Select the Container entity.

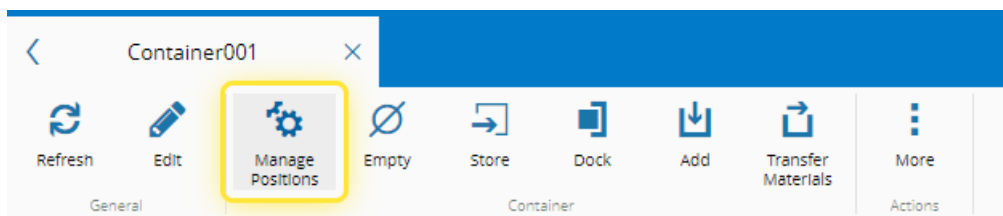

3. Select the desired Container.

Container

DEFAULT QUERY ▼

NAME	DESCRIPTION
Container001	Container001 De
Container002	Container002 De
Container003	Container003 De
Container004	Container004 De
Container005	Container005 De

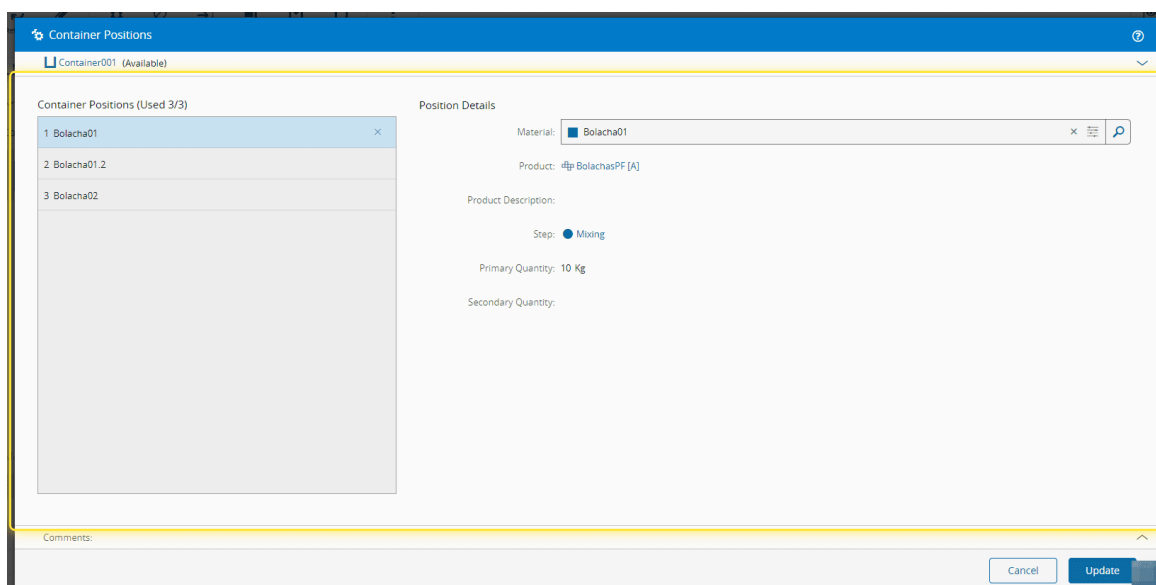

4. Select the Manage Positions button.

5. Under the Container Positions Wizard you can manage the available positions.

You can edit a current position, delete it or add materials to unoccupied positions.

For more information, see [Manage Container Positions - Critical Manufacturing Documentation Portal](#)

The screenshot shows the 'Container Positions' wizard. On the left, a list of positions is shown: 1 Bolacha01, 2 Bolacha01.2, and 3 Bolacha02. On the right, the 'Position Details' section is visible, showing the following information:

- Material: Bolacha01
- Product: BolachasPF [A]
- Product Description:
- Step: Mixing
- Primary Quantity: 10 Kg
- Secondary Quantity:

At the bottom right, there are 'Cancel' and 'Update' buttons.

6. Select the Update button to finish.
