7. Search for and add the Service. Select the Update button.

The screenshot shows the Critical Manufacturing software interface. The left sidebar contains a navigation menu with categories like Administration, Business Data, Manufacturing, Maintenance, Quality, Planning and Logistics, Business Intelligence, Automation, Data Platform, and Apps. The main window is titled 'Baker-01' and shows a 'Manage Services' dialog box. The dialog box has a left pane titled 'Service' listing 'Baking' and 'Chocolate Cooking' with 'Enabled' status. The right pane is titled 'Service Details' and shows the following fields:

- * Service: Chocolate Cooking
- Description: Chocolate Cooking Service
- Type: Standard
- Priority: (empty input field)
- Enabled: (checkbox is checked)

At the bottom of the dialog box are 'Cancel' and 'Update' buttons. The status bar at the bottom left shows 'CMR100vQA'.
