Maintenance Activity Order

A **Maintenance Activity Order** is a result of a **Maintenance Plan Instance**. While associating the **Maintenance Plan** with an entity, a **Maintenance Plan Instance** will be created and therefore, all **Maintenance Activities** there defined will be transformed into **Maintenance Activity Orders** along the Maintenance Calendar, obeying what is defined in each activity schedule.

Manage MAOs

To view and manage **MAOs**, Critical Manufacturing MES presents a Management Page inside the Maintenance section, as well as a Maintenance View inside each entity that it is associated with. Additionally, there is a section called Upcoming Maintenance in the Resource View, allowing you to view and manage the scheduled **MAOs**.

You can access this view from the Maintenance Page in the main menu:

The screenshot shows the Maintenance Management page. The top navigation bar includes 'Management' (selected), 'Refresh', 'Request', 'More', 'Current Maintenance', and 'Actions'. The main area is a calendar for August 2025. The days of the week are labeled: Sun, Mon, Tue, Wed, Thu, Fri, Sat. The dates from 27 to 31 are in the first week, and 1 to 5 are in the second week. A legend at the top right indicates: DISPLAY NAME, ENTITY ALL, TYPE ALL, Pending, Terminated, Resource, and a search bar. The calendar grid contains numerous entries, mostly '15/08-Daily Maintenance' tasks, with some specific ones like '18/08-Shift Change Maintenance' and '18/08-Annual Preventive Maintenance'. Some entries are highlighted with yellow or green boxes, and some have small icons next to them.

Or alternatively through the Maintenance View of specific entities:

The screenshot shows the Maintenance View for the 'Utho' entity. The top navigation bar includes 'Utho' (Active), 'Refresh', 'Edit', 'View', 'Ala-Mi', 'Request', 'Associate with Maintenance', 'Invoices/Counters', and 'More'. The main area is a calendar for August 2025. The days of the week are labeled: Sun, Mon, Tue, Wed, Thu, Fri, Sat. The dates from 27 to 31 are in the first week, and 1 to 5 are in the second week. A legend at the top right indicates: DISPLAY NAME, TYPE ALL, Pending, Terminated, and a search bar. The calendar grid contains specific maintenance tasks for the 'Utho' entity, such as '18/08-Weekly Maintenance 2016', '18/08-Weekly Maintenance 2017', and '18/08-Annual Preventive Maintenance'. Some entries are highlighted with yellow or green boxes, and some have small icons next to them. On the right side, there is a sidebar titled 'Activities' with sections for 'LEASE BASED (0)', 'No usage based activities', and 'AD-HOC (1)', with 'AD-HOC' being selected.

Execute MAOs

To execute **MAOs** associated by you (user), go to the Execution Page inside the Maintenance section.

Tip

Ad Hoc MAOs will appear in the Execute Page after being requested in the Resource View (Request button) and approved. Usage Based MAOs will also appear in this page, after the cycles defined are met and MAO is approved.

Info

For more information about MAOs management and execution, go to [Maintenance](#).

MAO Operations

MAO execution will be different according to what is defined in each **Maintenance Activity** in the **Maintenance Plan**. For example, if Manual approval is defined, then Approve button will appear in the **MAO**. Here are all the **MAO** operations available:

Operation	Description
Request Maintenance Activity Order	Request for an ad hoc MAO
Accept Maintenance Activity Order Reject Maintenance Activity Order	Accept or Reject MAO - Acceptance is defined to manual
Approve Maintenance Activity Order	Approve MAO - Approval is defined to manual
Begin Maintenance Activity Order Complete Maintenance Activity Order	Trigger MAO execution/Finalize MAO
Check-In Employee at Maintenance Activity Order Check-Out Employee from Maintenance Activity Order	Check-In/Out employee according to Personnel tab definition

Operation	Description
Join Maintenance Activity Orders/Separate Maintenance Activity Orders	Join or Separate MAOs according to what is defined in Contains tab
Perform Maintenance Activity Order	Execute MAO
Release Maintenance Activity Order	Release MAO - Release is defined to manual
Rework Maintenance Activity Order	Rework current MAO
Skip Maintenance Activity Order	Skip MAO before it has begun
Abort Maintenance Activity Order	Abort MAO after it has begun
Special Accept Maintenance Activity Order	Accept MAO by a user that doesn't have the MPI Owner Role, but has the Feature assigned to his role
Special Check-In Employee at Maintenance Activity Order Special Check-Out Employee from Maintenance Activity Order	Check-In/Out the MAO by a user that doesn't have the MPI Owner Role, but has the Feature assigned to his role
Special Rework Maintenance Activity Order	Rework MAO by a user that doesn't have the MPI Owner Role, but has the Feature assigned to his role
Special Update Maintenance Activity Order Schedule/Counters	Update MAO Counters/Schedule by a user that doesn't have the MPI Owner Role, but has the Feature assigned to his role
Update Maintenance Activity Order Schedule/Counters	Change MAO Counters/Schedule

Execution Workflow

You can see the execution workflow for the MAO below:
